PERSONAL PROJECTS

CrowdFunding Platform

[GitHub Link](#)

Developed a dynamic crowdfunding platform using React.js for the frontend and Node.js with Express for the backend. Integrated MongoDB for database management and implemented secure payment processing. Utilized RESTful APIs for user interactions and JWT for authentication, ensuring a secure and responsive platform.

Farm To Table

[GitHub Link](#)

Farm-to-table is a sustainable approach to food sourcing, where ingredients are supplied directly from local farms to consumers, reducing the need for intermediaries. This movement supports fresh, seasonal, and locally grown food, fostering community and environmental health.

Pomodoro Timer
