## PERSONAL PROJECTS

**Crowd Funding Platform**     GitHub Link
Developed a dynamic crowdfunding platform utilizing React.js for the frontend and Node.js with Express for the backend, enabling seamless user interactions and secure payment processing.

**Farm To Table**     GitHub Link
Farm-to-table is a sustainable approach to food sourcing, where ingredients are supplied directly from local farms to consumers, reducing the need for intermediaries. This movement supports fresh, seasonal, and locally grown food, fostering community and environmental health.

**Random Joke**     GitHub Link
An API-based project that generates random jokes using HTML, CSS, and React.js.
